Experience

Frontend Developer ● Witts & Stratts Media

Lagos, Nigeria   Jan 2019 - Present

- Worked in an agile-driven environment with a team of 4 to effectively maintain project timelines and utilize available resources.
- Implemented websites, web applications and landing pages using Pug, Scss, Javascript, GSAP and React tested with Lighthouse to be responsive and performant.
- Worked with another frontend developer to build a website for a government body to help increase awareness about and combat human trafficking which has helped repatriate and rehabilitate 14,489 migrants into the society.
- Owned the design, development and testing of an internal system of components and functions commonly used in company projects which sped subsequent development by 55%.

Freelance Developer & Designer ● Samakintunde

Lagos, Nigeria   2018 - Present

- Built a React app which gets the bus stops along a route and is used to get the list of bus stops for use in the **staffbus.ng** service's application.
- Used Next to build a web application for a food ordering businesses with serverless APIs to handle payments and notifications.
- Built a mobile app using Dart and Flutter for retailers to manage products in their inventory.

Projects

Routipro

www.routipro.samakintunde.com

A web app built with React, SCSS and Google Maps SDK to obtain the bus stops along a particular route and some data about the bus stops.

Movie App

www.github.com/samakintunde37/movie-app

A mobile app built with React Native and Redux to show a catalog of movies and some metadata about them and their trailers.

Cubana Foods

www.cubana-foods.netlify.com

A web app built with Next(React), SCSS and Serverless functions as APIs to handle payment, notifications and send the list of meals to the client.

Cryptoprice

www.samakintunde37.github.io/cryptoprice-react-ts

A web app built with React, Sass ad Typescript that allows users to see the top performing and worst performing currencies and save them to a watchlist.

Technical Skills

Core

Javascript, Sass, Typescript, Dart, Flutter, React, Redux, Gatsby, Next, Styled Components.

Played With

React Native and NodeJS.

Open Source Contributions

Say Their Names

A platform that raises awareness for the injustice and often forgotten names of racial inequality at the hands of law enforcement.

Hobbies & Interests

Photography, visiting interesting places, seeing movies, reading a good book, tinkering with computers, drawing(I'm not great at it but I enjoy doing it).

Education

B.Sc Chemistry ● University of Lagos

Sep 2014 - Oct 2018
Lagos, Nigeria
